To Whomsoever it may concern

We have been with One Accounting Services since 2010. We have interviewed a few accounting services before we could board 1 Accounting Services. We have identified that they have a professional setup, thorough in depth knowledge of the accounting & taxation system and most importantly we believe that they keep our information confidential.

Our experience with 1 Accounting has been great. We count on the Wei Ying's team for expert opinions on accounting & taxation knowledge and also they would inform us from time to time the latest policies of the government. They have been consistent and offer personal service at reasonable cost.

We are satisfied with 1 Accounting's services and we are able to focus on our core marketing and business development due to their reliable work & professionalism.

Yours Sincerely
Teh Li Jun
